PROFESSIONAL SUMMARY

Full Stack Web Developer with 9+ years of experience building scalable web applications using Laravel, React, and Vue.js. Proven track record of improving performance by up to 25% and delivering high-impact solutions for international clients. Skilled in REST API development, frontend optimization, and cross-functional collaboration in Agile environments

CORE SKILLS

- **Frontend Development:** React.js, Vue.js, JavaScript, TypeScript, Tailwind, Bootstrap
- **Backend Development:** PHP, Laravel, CodeIgniter, Redis, RabbitMQ
- **Database Management:** MySQL
- **API Development:** RESTful APIs, API Integration, Axios
- **Tools & Platforms:** Git, GitHub, Postman
- **Automation Tools:** Zapier, n8n, GoHighLevel
- **UI/UX Design:** Figma, Canva
- **Other Skills:** Responsive Design, Cross-Browser Compatibility, Performance Optimization, Debugging, Agile Development

PROFESSIONAL EXPERIENCE

Web Developer (Full Stack) - Codev Solutions Inc. *(September 2021 – April 2026)*

- Engineered and deployed scalable full stack applications using Laravel and React.js, supporting high-availability systems.
- Optimized and maintained RESTful APIs for real-time transactions, improving response time by 20–30% and ensuring system reliability
- Enhanced frontend performance and modernized legacy systems, reducing load times and downtime

Web Developer - MEDX OS *(August 2018 – September 2021)*

- Developed and scaled dynamic web applications using Vue.js and Laravel, ensuring maintainable and high-performance architecture
- Improved application performance by 25% by optimizing frontend-backend data flow and API handling
- Built reusable and modular components, accelerating development cycles by approximately 20%
- Integrated third-party APIs and services, enabling seamless data exchange and enhanced functionality

Web Developer / Team Lead - SDW Web Solutions *(January 2017 – May 2018)*

- Led and mentored a team of developers delivering web solutions for US-based clients, ensuring on-time and high-quality project delivery
- Developed internal productivity tools, streamlining workflows and improving operational efficiency
- Implemented structured development processes and code review practices, increasing team output and reducing errors

Web Developer - WBC Consulting *(June 2016 – January 2017)*

- Designed and developed interactive eLearning platforms using PHP and JavaScript, increasing learner engagement and retention
- Built custom course modules (quizzes, simulations, assessments) aligned with instructional design standards
- Delivered responsive and user-friendly interfaces, improving accessibility across devices

PROJECTS

Glow Wallet (Crypto Wallet) *(July 2025 – Present)* | Link:

<https://dev-user.glow-ewallet.com>

- Developed and maintained backend APIs for a secure crypto wallet platform using Laravel
- Improved API documentation and performance, enhancing integration efficiency for developers
- Contributed to React.js frontend development, improving UI responsiveness and user experience

Infaxia Promotions Platform *(February 2023 – Present)* | Link: <https://quest.infaxia.io>

- Built and optimized landing pages and promotional web applications
- Improved user engagement and conversion rates through responsive and user-centered design
- Collaborated with marketing teams to align technical solutions with business goals

CERTIFICATE

AI for Communities Workshop *(April 2026)*

EDUCATION

Bachelor of Science in Information Technology *(June 2011 – October 2015)*

Ateneo de Naga University
